

## Salute to Survivors

For the fourth year we are honored to share the stories of 10 incredible women who have all been afraid, brave, unsure, strong, inspiring, committed, passionate, compassionate and much, much more. They share a common bond, and a spirit that defies logic.

### *Lauren Y. Detzel*

ATTORNEY AT DEAN MEAD  
FIRST DIAGNOSED WITH BREAST CANCER IN 1997  
THAT RECURRED IN 2002

"Although having cancer (twice!) certainly is a life-changing event, approaching it with a positive attitude helped immensely. I believe that I am much stronger and a more purposeful individual than before cancer (BC). After cancer (AC), I don't intend to sweat the small stuff nearly as much and certainly appreciate the present. Every day above ground is a good day!"
